7th International Conference

**POLCOM®**

*Progress on Design Techniques and Manufacturing Technologies for  
Advanced Products and Processes in the Modern Era*

22-25 November 2023

[www.polcomconference.com](http://www.polcomconference.com)

## **Extended manuscript**

*POLCOM 2023 Edition*

Selected papers will also have the possibility to be extended on the following International journals:

- Forces in Mechanics – *Elsevier*
- Advanced Engineering Materials – *Wiley*
- International Journal on Interactive Design and Manufacturing journal – *Springer*
- Fracture and Structural Integrity journal – *Gruppo Italiano Frattura*

Authors interested in publishing an extended manuscript are invited to indicate their intent and Journal preference during the abstract conference proceeding submission.

Authors are invited, before showing their preferences, to check the coherence between the scientific field of the submitted abstract and topics covered by Journals (please, refer to the official website).

If you intend to publish your work in one of the listed journals, do not forget to specify it in the Abstract submission form (available on the Polcom website). Your request will receive a reply within 15 days starting from the abstract submission. For any inconvenience, please contact the organizing committee ([polcom@unicampania.it](mailto:polcom@unicampania.it))
